**Clean ahead**

## ***Hako-Jonas 800***

*Vacuum sweeper vehicles for the dust-free cleaning  
of small and medium-sized areas*

## Hako-Jonas 800

*Top quality from Hako – for thorough cleaning results without exhausting your budget*

When considering the dust-free cleaning of small and medium-sized areas, you can't do better than the Hako-Jonas 800E. It works according to the overhead throwing principle which ensures the hopper is filled to the full. This promotes uninterrupted work and a constant, first class sweeping performance. To ensure the machine continues to provide consistent cleaning results, the filter in the insert can be shaken clean occasionally. To clean it after completing work, it can be accessed from the clean side easily and quickly. The robust, steel frame construction in heavy-duty quality means the Hako-Jonas is a machine for professional use which can clean surfaces thoroughly and efficiently for a number of years!

**1) Take-it-Easy**

A hopper system enabling simple emptying in a single operation

**2) Maintenance-free battery drive**

Environmentally friendly and long operating time. With on-board charger for charging at any power socket

**3) Filter cleaning**

Shake the filter clean quickly and easily

**4) Cleaning without leaving tracks**

Large side broom for perfect sweeping results, robust collision protection

**5) Simple maintenance**

Pivot up the seat and all the areas for maintenance are open for access

**Hako-Jonas 800**

Technical data	800 E	800 E 2 SB
Drive motor (V/W)	24/600	24/600
Sweeping drive (V/W)	24/600	24/600
Battery system (Ah)	24	24
Sweeping width (mm)	670	670
Sweeping width with side broom (mm)	890	1,110
Sweeping speed (km/h)	6	6
Sweeping performance (m <sup>2</sup> /h) (complying with VDMA 24441)	5,340	6,660
Filter surface (m <sup>2</sup> )	1.5	1,5
Dirt hopper (l)	2 x 25	2 x 25
Weight (ready to operate) (kg)	282	286
L/W/H (Height above steering) (mm)	1,282/908/1,237	1,282/998/1,237

### Redefining performance

The Jonas 800E combines the compact dimensions of a walk-behind machine with the convenience and performance range of a ride-on machine – 100 % Hako:

- solid, robust construction
- value retention
- perfect sweeping results
- excellent dust vacuum and filter cleaning
- long battery operating time of up to 3.5 h
- integrated charger

### Intelli-Flap

The innovative flap to accommodate larger debris makes light work of clearing up small, difficult items, such as screws from a smooth surface: Simply drive over them and the Intelli-Flap gives way at the collection point without interrupting the overall sealing function for the sweeping facility.

### Take-it-Easy – the convenient hopper system

The operating handle at the rear lowers the hopper – to throw in larger debris or for easy removal. The dirt hoppers in the Hako-Jonas 800 E are divided up (2 x 25 l). This means the weight can be better distributed and the hoppers are easier to empty.

## **Hako: environmentally friendly from the start**

We want to leave the earth clean. Therefore, treating resources, the environment and climate with consideration influences all our business activities. This has been confirmed to us by independent institutes. More on our commitment can be found at [www.hako.com](http://www.hako.com)

## **Close to you wherever you are**

Our unsurpassed, close knit sales and service network means we are always close by to provide help fast throughout Europe.

## **Cleanliness with safety**

Our machines fulfil the highest demands. Reliability through quality "Made by Hako".

## **Sales, hire, leasing, rental**

We can offer you a wide-range of individual, attractive financing options.

## **We are there for you day and night**

Round-the-clock service and express parts delivery ensure the highest levels of availability.
